LAT POETAGE MINER

RAT PORTAGE, DEC. 2, 1902.

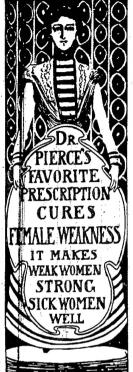

THE REFERENDUM.

The voting on the prohibition Bill is pregnant with an importance, that has nothing at all to do with the issue at stake, though many of us may lose sight of it in the excitement of the campaign. This is the Referendum itself. Advanced Radicals and Socialists all over the civilized world, have been agitating for the Initiative and Referendum system for the past twenty years, and in Greate Britain to-day, this is the main plank in the socialist platform. It is the most democratic form of legislation known; it is the very keystone of government of the people for the people and by the people, and it is "self" government in its highest sense. The people speak through their ballots, and their decision shall be final.

A CHEAP PATRIOT.

Paul Kruger can no longer pose as either a patriot or a martyr since the recent disclosures anent the smuggling of gold out of the South African Republic, while the men who fought an overwhelming British force are in penury. The following i des patch from London, England ought to remove whatever traces of sympathy are left in that country for the avaricious and selfish old brute who has left the brave men who fought for him to their fate. The following is the despatch referred to:-

"The British Government is telegraphing to all German ports making nouiries concerning a number of Boer gold bars worth \$650,000, which it is supposed, have been brought to this country from South Africa wit: in the past fortnight. The hars are destined for former President Kruger and Dr. Levds, and, it is presumed. had been concealed in the Northern Transvanl, Great Britain will endeavor to legally attach the gold if if it can be located on the ground that she is entitled to all the assets of the Transvaal because she has asnumed responsibility for the debts of that country, including the bonds issued prior to the war.

ing to seemingly trustworthy inforbenefit of the Boer people; but Dr. Leyds refused, avering that mout, was to be used in upholding the boer natimality in the ruture.

Botha has notified Dr. Leyds that unless the gold is given up legaproductings will be brought against

Prince Edward Island Farmer compelled to stop clearing up his farm.

In the Spring of 1 sh I amend to close up a of land, but had not worked many days befere I was taken with a very lame back, and wastepuncted to stop work. true-New Labor Legislation. The following letter from Welling ton, New Zeanand, dated Oct. 20th. doughter the assistion of labor . unions and compulsory arbitration.hals

just been received by a Canadian public man

Many' letters have been received from Consola asions if it is true that New Zealand is in a condition of molestrial turned, and that com pulsory artitration is a torbire. It is added that the report is current in Capada that the Premier of this colony has pronounced against the set and against further legislation of the advanced order. The Premier, so far from having

pronounced against the Arbitration Act, has this session, introduced and amending bill, proking the act for more strict than before. . One of its clauses provides that all trade unions in an industrial district shall come under the award, whether in dustrial priors or not. So th. t. while an industrial paten has certain privileges, such as i...trating putes and electing boards and courts. the union that is not industrial has only the disabilities. This is something like compulsory arbitration The bill has passed the Lower House with flying corers, and is almost certain to pass into law.

Another measure that will, in all

probability, reach the statute book, is the new Factory bill, consolidat ing existing acts, but with some very important new points. The hours for women and youths are to be 45 per week; that is to say, an eight hour day and a weekly half holiday (to be paid for), as well as overtime, which must be pait time and a quarter. That is per cent. extra on day rates.

There is a minimum wage of dents per hour, no girl or boy to be employed at less wage than \$1 25 The men are to have nor week. 48-hour week; any time after this is to be paid at time and a quarter There is a schedule of a few exemptions, such as for fish-curing, jammaking and other intermittent industries, where, at certain times of the year long hours have to be worked, while, at other times, the work partially or wholly ceases.

The importance of this new bill lies in the fact that, hitherto, Pactories Act has only interferred with the hours of women and boxs, and, to attempt to regulate the working hours for men is a new de-Exception is, of course made for any trade working under an award of the Arbitration Court and it is thought that employes will sow be more ready to seek the aid of the court in order to get better

terms than the act itself allows. With regard to the proposals of the Covernment to establish a line of mail steamers to San Francisco, the balance of commercial opinion appears to incline unfavorably against the Occame Company. This colony offered a subsidy of \$75,000 year, for three years; but Mr Spreckers, on behalf of the com-pany, declined the offer. Mr. Spreckels was willing to enter Into a five years' contract for the Cartiage of the mails for \$7,500, United States gold, per trip. sevention trips per appum. It is doubtul if this will be acceded to. Husiness mer pay that, although the San Prancisco Line is much

er, still that speci sone is not no essential as recutarity and certainuieant officer being transacted by cuble. There ist too, the patrintic side of the question, many think that New Zealand bught to encourage a Vancouver service not subsidize steamers which are ender a law that discriminates
